

Orange SIM (For iPhones Only)

For the best network quality, speed, and performance, use the Gen Mobile Orange SIM for all iPhone XS and newer devices.

- Before activation, the device must be updated to iOS 18.4 or later.
- Must enter the device's IMEI during activation.
- eSIM is supported on iPhone XS and newer models.

Sky SIM (For Android Only)

Delivers the same reliable nationwide network experience as Orange and is compatible with Android devices, including Samsung, Motorola, and more.

- Devices must be AT&T compatible.
- Not compatible with iPhones.
- eSIM is supported on all Android models
